Currently, the term “**U.S. Taxpayer**” includes: a U.S. citizen or resident alien of the United States (as defined for U.S. federal income tax purposes); any entity treated as a partnership or corporation for U.S. tax purposes that is created or organized in, or under the laws of, the United States or any state thereof (including the District of Columbia); any other partnership that may be treated as a U.S. Taxpayer under future U.S. Treasury Department regulations; any estate, the income of which is subject to U.S. income taxation regardless of source; and any trust over whose administration a court within the United States has primary supervision and all substantial decisions of which are under the control of one or more U.S. fiduciaries. Foreign Account Tax Compliance Act and Common Reporting Standard (“CRS”)

FATCA

FATCA was enacted in 2010 by the United States Congress as part of the U.S. Hiring Incentives to Restore Employment (HIRE) Act to target non-compliance with tax laws by U.S. Taxpayers using overseas accounts. Under FATCA, financial institutions outside of the U.S. are required to regularly submit information on financial accounts held by U.S. Taxpayers to the U.S. tax authorities. Failure to comply with FATCA may, amongst other things, subject the Fund to U.S. withholding tax on certain types of payments made to the Fund. Accordingly, it is intended that the Fund complies with FATCA.

For the purpose of complying with FATCA, we, the Trustee and/or other service providers of the Fund may be required to report and disclose information on certain investors in the Fund to the U.S. tax authorities and/or such Singapore authority as may be required under Singapore laws and regulations to be implemented as part of any IGA entered into between the U.S. and Singapore¹ in connection with FATCA and/or withhold certain payments to such investors.

CRS

CRS, endorsed by the Organisation for Economic Co-operation and Development (OECD) and the Global Forum for Transparency and Exchange of Information for Tax Purposes, is an internationally agreed standard for the automatic exchange of information on financial accounts between jurisdictions with the objective of detecting and deterring tax evasion through the use of offshore bank accounts.

In Singapore, the Income Tax (International Tax Compliance Agreement) (Common Reporting Standard) Regulations 2016 require financial institutions such as us to conduct due diligence (including the collection, review and retention of financial account information) and report financial account information relating to specified persons from jurisdictions with which Singapore has a “competent authority agreement” (“CAA”) to the Inland Revenue Authority of Singapore (IRAS). Such information may subsequently be exchanged with Singapore’s CAA partners. Singapore may enter into further IGAs, or the relevant authorities may enact further legislation or impose further requirements, which will form part of the CRS.

* * *

You are required to:

- (a) provide such information, documents and assistance in connection with the above or any other tax or other information reporting regime as we and/or the Trustee may require from time to time; and
- (b) notify us or any of our authorised agents or distributors in writing immediately if you are or become a U.S. Taxpayer, or are holding Units for the account of or benefit of a U.S. Taxpayer.

You are also deemed to have consented to us, the Trustee and/or other service providers to the Fund carrying out our/their obligations in reporting and disclosing information on you and your investments to the relevant authorities as described above or pursuant to any other tax or other information reporting regime.

* * *

We may compulsorily realise all or any of your Units in any of the circumstances set out under paragraph 20.2 of this Prospectus.

You may direct your enquiries in relation to the Fund to us or our authorised agents or distributors.

¹ Pursuant to the IGA entered into between Singapore and the U.S. on 9 December 2014, Singapore-based financial institutions (such as us) will report information on financial accounts held by U.S. Taxpayers to the Inland Revenue Authority of Singapore (IRAS), which will in turn provide the information to the U.S. tax authorities.

1.2 Date of registration and expiry of Prospectus

The Authority registered this Prospectus on 28 November 2017. It is valid up to 27 November 2018 and will expire on 28 November 2018.

1.3 Classes of Units

The Fund may consist of one or more Classes of Units. Different Classes may have different characteristics such as the Class currency, minimum threshold amounts for subscription, holding and realisation, distribution policy, eligibility requirements, mode of investment and the availability of a RSP. A separate NAV per Unit (in the relevant Class currency), which may differ as a consequence of such variable factors, will be calculated for each Class. Save for such differences, Holders of each Class have materially the same rights and obligations under the Deed. You should note that the assets of the Fund are pooled and invested as a single fund and are not segregated in respect of each Class.

Note on naming convention:

- *The currency stated in the name of a Class is its Class currency: e.g. the Class currency of Class USD Acc is USD.*
- *“Dist” or “Acc” refers to whether the Class is a Distribution Class (which may make distributions) or Accumulation Class respectively.*

We may at any time establish new Classes within the Fund. We may re-designate the Units in any existing Class so long as there is no prejudice to the existing Holders of such Class or the Fund as a whole. Subject to the foregoing, we may, with written notice to the Trustee, launch or delay the launch of any Class at any time.

The following Classes of Units have been established:

- Class SGD Acc
- Class SGD Dist
- Class USD Acc
- Class USD Dist
- Class AUD Acc
- Class AUD Dist

1.4 Trust deed and supplemental deeds

- (a) The Fund was constituted by way of a trust deed dated 23 December 2014, which has since been amended by the following deeds:

First Supplemental Deed	23 April 2015

Second Supplemental Deed	28 November 2017

The trust deed dated 23 December 2014, as amended, shall be referred to as the “**Deed**”.

- (b) The Deed is binding on each Holder and all persons claiming through such Holder as if each of them had been a party to the Deed.
- (c) You may inspect a copy of the Deed free of charge at our operating office during normal business hours, subject to such reasonable restrictions as we may impose. You may request for a copy at a charge not exceeding S\$25 per copy or such other amount as we and the Trustee may from time to time agree.

1.5 Accounts and reports

You may obtain copies of the latest semi-annual and annual reports, semi-annual and annual accounts, and the auditors’ report on the annual accounts of the Fund, at our operating office during normal business hours (subject to such reasonable restrictions as we may impose).

3. THE TRUSTEE, CUSTODIAN AND ADMINISTRATOR

3.1 The Trustee

The Trustee of the Fund is State Street Trust (SG) Limited, a trust company approved by the Authority under Section 289(1) of the SFA to act as a trustee for collective investment schemes which are authorised under Section 286 of the SFA and constituted as unit trusts. The Trustee is regulated in Singapore by the Authority.

See the Deed for details on the Trustee's role and responsibilities.

3.2 The custodian

The Trustee has appointed State Street Bank and Trust Company ("SSBT"), a trust company organised under the laws of the Commonwealth of Massachusetts and, in respect of such appointment, acting through its Singapore Branch, as the global master custodian of the Fund.

SSBT was founded in 1792 and is a wholly owned subsidiary of State Street Corporation. It is licensed and regulated by the Federal Reserve Bank of Boston. State Street Bank and Trust Company, Singapore Branch, holds a wholesale bank license issued by the Authority and is regulated by the Authority.

SSBT provides custodian services in over 100 markets by utilising its local market custody operations and through its network of sub-custodian banks. SSBT will appoint sub-custodians in those markets where the Fund invests where SSBT does not itself act as the local custodian. SSBT has processes for the initial selection, and ongoing monitoring of its sub-custodians, each of which is chosen based upon a range of factors including securities processing and local market expertise, and must satisfy specific operating requirements in terms of structure, communications, asset servicing and reporting capabilities. All sub-custodians appointed by SSBT must be licensed and regulated under applicable law to provide custodian and related asset administration services, and carry out relevant related or ancillary financial activities, in the relevant market jurisdiction. SSBT will typically seek to select local branches or affiliates of major global financial institutions that provide sub-custodian services in multiple markets, although unique market service requirements may result in the selection of an entity as sub-custodian that is more local in scope.

Other custodians may be appointed from time to time in respect of the Fund or any of its assets.

See [paragraph 20.3](#) below for further details of the custodial arrangement in respect of the Deposited Property.

3.3 The administrator

The administrator of the Fund is State Street Bank and Trust Company, acting through its Singapore Branch, which has been appointed by the Managers to provide (i) certain administration and valuation services including accounting and net asset value calculation pursuant to an Administrative Services Agreement, and (ii) certain transfer agency services pursuant to a Transfer Agency and Services Agreement, to the Fund.

4. OTHER PARTIES

4.1 The registrar

State Street Bank and Trust Company, acting through its Singapore Branch, has been appointed by the Trustee as registrar of the Fund and will be responsible for keeping the Register. Any Holder may inspect the Register at 168 Robinson Road #33-01, Capital Tower, Singapore 068912 during normal business hours subject to such reasonable restrictions as the registrar may impose.

The Register is conclusive evidence of the number of Units held by a Holder. The entries in the Register shall prevail over the details appearing on any statement of holding, unless the Holder proves to the Trustee's and our satisfaction that the Register is incorrect.

4.2 The auditors

The auditors of the accounts of the Fund are PricewaterhouseCoopers LLP.

5. INVESTMENT CONSIDERATIONS

5.1 Investment objective

The investment objective of the Fund is to provide investors with regular income and capital appreciation over the medium to long term by investing primarily in equity and equity-related securities, real estate investment trusts (“REITs”) and debt securities, directly or indirectly, with a primary focus in the Asia Pacific region.

5.2 Investment focus and approach

The Fund aims to achieve its objective through a diversified portfolio of investments which may include collective investment schemes (“CIS”) managed by us, other local or offshore CIS, exchange-traded funds, equities, equity-related securities, REITs, debt securities and financial derivative instruments (including but not limited to futures, options and swaps). Financial derivative instruments may be used or invested in for hedging existing positions and efficient portfolio management or a combination of both purposes.

It is intended that at least 70% of the Fund’s investments will be focused in the Asia Pacific region² while the remainder may be focused in any part of the world (including the Asia Pacific region) as we may determine. However, the Fund’s allocation to the Asia Pacific region may be temporarily reduced below 70% from time to time at our discretion, in particular when there is a lack of suitable investment opportunities in the Asia Pacific region.

Our approach is to select investments which they believe offer the potential for sustainable dividend yields at the required level. The regional allocation and allocation to asset classes and underlying entities may vary over time.

Initially, a substantial portion of the assets of the Fund will be invested into 4 Singapore-authorised open-ended CIS constituted and domiciled in Singapore which are also managed by us, namely:

- (i) United Asian Bond Fund (a sub-fund under the umbrella fund known as the United Choice Portfolios);
- (ii) United Asian High Yield Bond Fund (a sub-fund under the umbrella fund known as the United Choice Portfolios);
- (iii) United Asia Pacific Real Estate Income Fund (a sub-fund under the umbrella fund known as the United Real Estate Multi Strategy Funds); and
- (iv) United Emerging Markets Bond Fund (a sub-fund under the umbrella fund known as the United Emerging Markets Portfolios).

The allocation between the above schemes will be actively managed. We reserve the right, with a view to achieving the investment objective of the Fund, to invest the assets of the Fund into other local or offshore CIS in such proportions as we deem fit.

In the event of extreme market conditions or severe market stress or disruptions, as determined by us at our sole discretion, we may move up to 100% of the assets of the Fund to cash, money market instruments, money market funds or United SGD Fund (a sub-fund under the umbrella fund known as the United Choice Portfolios II) which is also constituted and domiciled in Singapore and managed by us. Further, if we find that there are no suitable investment opportunities for the Fund at any time, we may temporarily invest the Fund’s assets in money market instruments, short term debt securities and/or hold cash deposits. The Fund may also hold part of its assets in liquid investments or cash for liquidity purposes.

United Asian Bond Fund, United Asian High Yield Bond Fund, United Asia Pacific Real Estate Income Fund, United Emerging Markets Bond Fund and United SGD Fund shall collectively be referred to in this Prospectus as “**Underlying Funds**” and “**Underlying Fund**” shall mean any one of them.

² The Asia Pacific region includes but is not limited to Australia, China, Hong Kong, India, Indonesia, Japan, Malaysia, New Zealand, Philippines, Singapore, South Korea, Taiwan and Thailand.

5.3 Investment objective, focus and approach of the Underlying Funds

The investment objective, focus and approach of each Underlying Fund are set out in the relevant Appendix.

5.4 Distribution policy

Distributions (if any) will only be made in respect of the Distribution Classes of the Fund.

We intend to make regular monthly distributions of such amount as we may from time to time determine as at the Distribution Date.

Distributions will commence only after a period of at least one month following the inception of the relevant Distribution Class (or after such other period as we may determine at their sole discretion).

In addition, we may make annual bonus distributions as at the last Business Day of December of each year of such amount as we may from time to time determine.

Distributions shall be based on the number of Units held by each Holder as at the relevant Distribution Date as evidenced by the Register. Distributions will be made to Holders within 30 Business Days from the relevant Distribution Date.

The making of distributions is at our absolute discretion and distributions are not guaranteed. The making of any distribution does not mean that further distributions will be made. We reserve the right to vary the frequency and/or amount of distributions. Distributions may be made out of income, capital gains or capital. The declaration or payment of distributions (whether out of income, capital gains, capital or otherwise) may have the effect of lowering the NAV of the Fund or the relevant Class. Moreover, distributions out of capital may amount to a reduction of part of your original investment and may result in reduced future returns.

5.5 Product suitability

The Fund is only suitable for investors who:

- seek regular income and capital appreciation over the medium to long term; and
- are comfortable with the volatility and risks of a fund which has a primary focus in the Asia Pacific region.

5.6 Authorised Investments

(a) The authorised investments of the Fund (“**Authorised Investments**”) are as follows:

- (i) any Quoted Investment which is selected by us for the purpose of investment of the Deposited Property;
- (ii) any Investment in respect of which an application for listing or permission to deal has been made to a Recognised Market and the subscription for or purchase of which is either conditional upon such listing or permission to deal being granted within a specified period not exceeding 12 weeks (or such other period as may be agreed between the Trustee and us) or in respect of which we are satisfied that the subscriptions or other transactions will be cancelled if the application is refused;
- (iii) any Unquoted Investment which is selected by us for the purpose of investment of the Deposited Property;
- (iv) any Investment which is a unit in any unit trust scheme or a share or participation in an open-ended mutual fund or other collective investment scheme;
- (v) the currency of any country or any contract for the spot purchase or sale of any such currency or any forward contract of such currency;
- (vi) any Investment denominated in any currency;
- (vii) any Investment which is a future, option, forward, swap, collar, floor or other derivative; and

- (viii) any Investment which is not covered by sub-paragraphs (i) to (vii) above, as selected by us and approved by the Trustee in writing.

See the Deed for the full meaning of the terms **Quoted Investment**, **Investment**, **Recognised Market** and **Unquoted Investment**.

The Fund intends to use or invest in FDIs. Further information is set out in paragraph 5.8 of this Prospectus.

5.7 Investment restrictions

- (a) The investment guidelines and borrowing limits set out under Appendix 1 of the Code apply to the Fund.
- (b) Currently, the Fund and the Underlying Funds do not intend to carry out securities lending or repurchase transactions but may do so in the future in accordance with the provisions of the Code. Accordingly, the Fund may at such time in the future become subject to the provisions on securities lending and repurchase transactions as set out in the Code.

5.8 Risk management procedures of the Managers relating to the use of FDIs

- (a) The Fund may use or invest in FDIs for the purposes of hedging existing positions, efficient portfolio management or a combination of both purposes.
- (b) We will use the commitment approach to determine the Fund's global exposure to FDIs by converting its positions in the FDIs into equivalent positions in the FDIs' underlying assets. Such exposure will be calculated in accordance with the provisions of the Code. We will ensure that the global exposure of the Fund to FDIs or embedded FDIs will not exceed 100% of the Fund's NAV.
- (c) Below is a description of risk management and compliance procedures and controls adopted by us:
 - (i) We will implement various procedures and controls to manage the risk of the Fund's assets. Our decision to invest in any particular security or instrument on behalf of the Fund will be based on our judgment of the benefit of such transactions to the Fund and will be consistent with the Fund's investment objective in terms of risk and return.
 - (ii) *Execution of trades.* Prior to each trade, we will ensure that the intended trade will comply with the stated investment objective, focus, approach and restrictions (if any) of the Fund, and that best execution and fair allocation of trades are done. Our middle office department will conduct periodic checks to ensure compliance with the investment objective, focus, approach and restrictions (if any) of the Fund. If there is any non-compliance, our middle office department is empowered to instruct the relevant officers to rectify the same. Any non-compliance will be reported to higher management and monitored for rectification.
 - (iii) *Liquidity.* If there are any unexpectedly large realisations of Units, it is possible that the assets of the Fund may be forced to be liquidated at below their fair and expected value, especially in illiquid Recognised Markets. We will ensure that a sufficient portion of the Fund will be in liquid assets such as cash and cash-equivalents to meet expected realisations, net of new subscriptions.
 - (iv) *Counterparty exposure.* The Fund may have credit exposure to counterparties by virtue of positions in FDIs and other financial instruments held by the Fund. To the extent that a counterparty defaults on its obligations and the Fund is delayed or prevented from exercising its rights with respect to the investments in its portfolio, it may experience a decline in the value of its assets and in its income stream and incur extra costs associated with the exercise of its financial rights. Subject to the provisions of the Code, we will restrict our dealings with counterparties to entities that have a minimum long-term issuer credit rating of above BB+ by Standard and Poor's, an individual rating of above C or viability ratings of above bbb by Fitch Inc., a baseline credit assessment of above a3 by Moody's Investors Service, or an equivalent rating from any other reputable rating agency. If any approved counterparty fails this criterion subsequently, we will take steps to unwind the Fund's position with that counterparty as soon as practicable.

- (v) *Volatility.* To the extent that the Fund has exposure to FDIs that allow a larger amount of exposure to a security for no or a smaller initial payment than the case where the investment is made directly into the underlying security, the value of the Fund's assets will have a higher degree of volatility. The Fund may use FDIs for hedging purposes to reduce the overall volatility of the value of its assets. At the same time, we will ensure that the global exposure of the Fund to FDIs and embedded FDIs will not exceed the NAV of the Fund, as stated in sub-paragraph (b) above.
- (vi) *Valuation.* The Fund may have exposure to over-the-counter FDIs that are difficult to value accurately, particularly if there are complex positions involved. We will ensure that independent means of verifying the fair value of such instruments are available, and will conduct such verification at an appropriate frequency.
- (d) We will ensure that the risk management and compliance procedures and controls adopted by us are adequate and have been implemented, and that we have the necessary expertise to control and manage the risks relating to the use of FDIs. We may modify the risk management and compliance procedures and controls as we deem fit and in the interests of the Fund, but subject always to the requirements under the Code.
- (e) The Fund may net its over-the-counter derivative positions with a counterparty through bilateral contracts for novation or other bilateral agreements with the counterparty, provided that such netting arrangements satisfy the relevant conditions described in the Code, and that we will obtain, or have obtained (as applicable), the legal opinions as stipulated in the Code.
- (f) Where the Fund uses or invests in FDIs on commodities, all such transactions shall be settled in cash at all times.

5.9 Risk management procedures in respect of the Underlying Funds

We apply the same risk management and compliance procedures and controls in respect of the Underlying Funds which are managed by us.

Audit fee, custodian fee, transaction costs ⁽²⁾ and other fees and charges ⁽³⁾	<p>Subject to agreement with the relevant parties. Each fee or charge may amount to or exceed 0.1% p.a., depending on the proportion that it bears to the NAV of the Fund.</p> <p>Based on the audited accounts and the average NAV of the Fund for the financial year ended 31 December 2016:</p> <ul style="list-style-type: none"> • Audit fee: less than 0.1%. • Custodian fee: less than 0.1%. • Transaction costs: less than 0.1%. • Other fees and charges: 0.248%.

- (1) If you switch your Units to units of another fund managed by us (“**New Fund**”), we will charge you the Switching Fee instead of the subscription fee for the New Fund. If the subscription fee for the New Fund is more than the Switching Fee, you are effectively receiving a discount on the New Fund’s subscription fee.
- (2) Transaction costs (which do not include the transaction fees mentioned below) include all expenses relating to the purchase and sale of financial instruments.
- (3) Other fees and charges include transaction fees payable to the custodian (the amount of which will depend on the number of transactions carried out and the place at which such transactions are effected), printing costs, professional fees, scrip fees, communication, goods and services tax and bank charges.

- 6.2 As required by the Code, all marketing, promotional and advertising expenses in relation to the Fund will not be paid from the Deposited Property.
- 6.3 Any Subscription Fee and Realisation Fee will be retained by us for our own benefit and will not form part of the Deposited Property. All or part of the Subscription Fee may also be paid to or retained by our authorised agents or distributors. We will also pay any other commission, remuneration or sum payable to such authorised agents or distributors in respect of the marketing of Units. Moreover, the authorised agents and distributors through whom you subscribe for Units may (depending on the specific nature of services provided) impose other fees and charges that are not disclosed in this Prospectus, and you should check with the relevant agent or distributor on such fees and charges, if any.
- 6.4 We may at any time differentiate between investors as to the amount of the Subscription Fee, Realisation Fee, Switching Fee and other charges (if any) payable to us upon the issue, realisation or switch of Units, or apply such discounts or waivers as we think fit (provided that such discounts will be borne by us and not by the Fund).
- 6.5 The costs of establishment of each Class may be amortised over such period to be determined at our discretion.
- 6.6 The fees and charges of each Underlying Fund are set out in the relevant Appendix. You should note that in respect of the Fund’s investments in each Underlying Fund, the subscription fee, realisation fee and switching fee imposed by the relevant Underlying Fund will be waived. The management fee in respect of the Fund’s investments in each Underlying Fund will also be rebated back to the Fund.
- 6.7 Apart from the Underlying Funds, the Fund may also invest in other collective investment schemes from time to time. You should note that the amount of fees and charges incurred by the Fund in respect of any investment into such other collective investment schemes may be higher or lower than those indicated in respect of the Underlying Funds. Such fees and charges, which may include (but are not limited to) subscription fees, realisation fees and management fees, may in aggregate amount to or exceed 0.1% p.a. of the Fund’s NAV. As with the Underlying Funds, where the other collective investment schemes invested into are funds managed by us, the subscription fee and the realisation fee imposed by the relevant collective investment scheme will be waived and the management fee in respect of the Fund’s investments in each collective investment scheme will be rebated back to the Fund.

7. RISKS

7.1 General risks

You should consider and satisfy yourself as to the risks of investing in the Fund.

Generally, some of the risk factors that you should consider are market risk, interest rate risk, foreign exchange risk, political risk, liquidity risk and derivatives risk. The degree to which these risks affect investments in the Fund varies depending on the Fund’s investment objective, approach and focus, and you should also consider the risks specific to the Fund.

You should be aware that the price of Units and the income accruing from them may fall or rise and you may not get back your original investment. There is no guarantee that the investment objective of the Fund will be achieved.

Investment in the Fund is not meant to produce returns over the short term and you should not expect to obtain short-term gains from such investment.

The general and specific risks described in this paragraph 7 are not exhaustive and you should be aware that the Fund may be exposed to other risks of an exceptional nature from time to time.

The investments of an Underlying Fund may also be subject to the risks described below as well as other risks as disclosed in the relevant Appendix for the Underlying Fund and in the prospectus of the Underlying Fund.

7.2 Specific risks

(a) Market risk

You should consider and satisfy yourself as to the usual risks of investing and participating in publicly traded securities. Prices of securities may go up or down in response to changes in economic conditions, interest rates and the market's perception of securities which in turn may cause the value of Units to rise or fall.

Furthermore, some of the markets or exchanges on which the Fund may invest may prove to be illiquid or highly volatile from time to time and this may affect the price at which the Fund may liquidate its positions to meet realisation requests.

(b) Equity risk

The Fund invests in stocks and other equity securities which are subject to market risks that historically have resulted in greater price volatility than that experienced by bonds and other fixed income securities. This in turn may affect the value or volatility of the Fund.

(c) Debt securities risk

Investments in debt securities are subject to adverse changes in the financial condition of the issuer, or in general economic conditions, or both, or an unanticipated rise in interest rates, which may impair the ability of the issuer to make payments of interest and principal especially if the issuer is highly leveraged. Such issuer's ability to meet its debt obligations may also be adversely affected by specific corporate developments, or the issuer's inability to meet specific projected business forecasts, or the unavailability of additional financing. Also, an economic downturn or an increase in interest rates may increase the potential for default by the issuers of these securities. Investments in debt securities are also subject to the risk of interest rate fluctuations, and the prices of debt securities may go up or down in response to such fluctuations in interest rates.

(d) Foreign exchange and currency risk

The Fund is denominated in SGD while each Class is denominated in the relevant Class currency.

Where the Fund makes investments which are denominated in a currency that is different from the Fund currency or the relevant Class currency, fluctuations of the exchange rates of such currencies against the Fund currency or Class currency may affect the value of the relevant Units. In our management of the Fund, we may hedge the foreign currency exposure of the Fund or any Class and may adopt an active or passive currency management approach. However, the foreign currency exposure of the Fund or a Class may not be fully hedged depending on the circumstances of each case. Such circumstances include but are not limited to the outlook, hedging costs and market liquidity of the relevant currency.

Additionally, where a Class currency is different from the Fund currency, changes in the exchange rate between the Class currency and the Fund currency may adversely affect the value of the Units of such Class, as expressed in the relevant Class currency.

Subject to the same considerations in the sub-paragraph above, we may or may not mitigate the exchange rate risks to the extent of the value of the assets of the Fund attributed to such Class by hedging such exchange rate risks, and to the extent that we do not do so, investors will be exposed to exchange rate risks. Although a financial instrument used to mitigate the exchange rate risks of a Class may not be used in relation to the other Classes of Units within the Fund, the financial instrument will comprise the assets (or liabilities) of the Fund as a whole. The gains (or losses) on and the costs of the relevant financial instruments will, however, accrue solely to the relevant Class of Units of the Fund.

(e) Political, regulatory and legal risk

The value and price of the Fund's investments may be adversely affected by international political developments, changes in exchange controls, taxation policies, monetary and fiscal policies, foreign investment policies, government policies, restrictions on repatriation of investments and other changes in the laws, regulations, restrictions and controls in the relevant countries.

(f) Derivatives risk

As the Fund may use or invest in FDIs, it will be subject to risks associated with such FDIs. FDIs include foreign exchange forward contracts and equity index future contracts. An investment in a FDI may require the deposit of an initial margin and additional deposit of margin on short notice if the market moves against the investment position. If the required margin is not provided in time, the investment may be liquidated at a loss. Therefore, it is essential that investments in FDIs are monitored closely. We have controls for investments in FDIs and have in place systems to monitor the FDI positions of the Fund. See paragraph 5.8 for more information on our risk management procedures on the use of FDIs.

(g) Counterparty risk

The Fund is exposed to the risk that a counterparty may default on its obligations to perform under a particular contract. If a counterparty becomes bankrupt or insolvent, the Fund could experience delays in liquidating an investment and may therefore incur significant losses, including losses resulting from a decline in the value of the investment during the period in which the Fund seeks to enforce its rights. The Fund may also be unable to realise any gains on the investment during such period and may incur fees and expenses to enforce its rights. There is also a risk that counterparty contracts may be terminated earlier due to, for instance, bankruptcy, supervening illegality or change in the tax or accounting laws relative to those laws existing at the time the contracts were entered into.

(h) Exceptional market conditions risk

Under certain market conditions such as during volatile markets or crisis situations or where trading on the relevant stock exchange is suspended, restricted or otherwise impaired, it may be difficult or impossible to liquidate or rebalance positions. During such times, the Fund may be unable to dispose of certain assets due to thin trading or lack of a market or buyers. Placing a stop-loss order may not necessarily limit the Fund's losses to intended amounts as market conditions may make it impossible to execute such order at the ideal price. In addition, such circumstances may force the Fund to dispose of assets at reduced prices, thereby adversely affecting the Fund's performance. Investments may also be difficult to value with any degree of accuracy or certainty. The dumping of securities in the market could further deflate prices. If the Fund incurs substantial trading losses, the need for liquidity could rise sharply at the same time that access to liquidity is impaired. Further, in a market downturn, the financial conditions of the Fund's counterparties' could be weakened, thereby increasing the Fund's credit risk.

(i) Risk of using rating agencies and other third parties

Credit ratings of instruments invested into by the Fund and/or by those Underlying Funds managed by us represent our and/or the rating agencies' opinion regarding the credit quality of the instrument or the institution and are not a guarantee of quality. Rating methodologies generally rely on historical data, which may not be predictive of future trends and adjustments to credit ratings in response to subsequent changes in circumstances may take time. When a debt security is rated, the downgrading of such debt security could decrease the value and liquidity of the security.

We are entitled to rely, without independent investigation, upon pricing information and valuations furnished to the Fund and/or to those Underlying Funds managed by us by third parties, including pricing services and independent brokers/dealers. Our accuracy depends on these parties' methodology, due diligence and timely response to changing conditions. We cannot be held responsible for any failures by such parties in their valuations.

(j) Actions of institutional investors

The Fund may accept subscriptions from institutional investors and such subscriptions may constitute a large portion of the total investments in the Fund. While these institutional investors will not have any control over the investment decisions for the Fund, the actions of such investors may have a material effect on the Fund. For example, substantial realisations of Units by an institutional investor over a short period of time could necessitate the liquidation of the Fund's assets at a time and in a manner which does not provide maximum economic advantage to the Fund and which could therefore adversely affect the value of the Fund's assets.

(k) Liquidity risk of investments

Investments by the Fund in some Asian and/or emerging markets often involve a greater degree of risk due to the nature of such markets which do not have fully developed services such as custodian and settlement services often taken for granted in more developed markets. There may be a greater degree of volatility in such markets because of the speculative element, significant retail participation and lack of liquidity which are inherent characteristics of these markets.

(l) Broker risk

We may engage the services of third party securities brokers and dealers to acquire or dispose the investments of the Fund and to clear and settle its exchange traded securities trades. In selecting brokers and dealers and in negotiating any commission involved in our transactions with them, we consider, amongst other things, the range and quality of the professional services provided by such brokers and dealers and their credit standing and licensing or regulated status.

It is possible that the brokers or dealers engaged for the Fund may encounter financial difficulties that may impair the Fund's operational capabilities. If a broker or dealer fails or becomes insolvent, there is a risk that the Fund's orders may not be transmitted or executed and its outstanding trades made through the broker or dealer may not settle.

(m) Investment management risk

Investment performance depends on the portfolio management team and the team's investment strategies. If the investment strategies do not perform as expected, if opportunities to implement those strategies do not arise, or if the team does not implement its investment strategies successfully, an investment portfolio may underperform or suffer significant losses.

(n) Emerging markets risk

Investments by the Fund in emerging markets may involve a high degree of risk and may be considered speculative. Such risks include (i) greater risk of expropriation, confiscatory taxation, nationalisation, and social, political and economic instability; (ii) the current small size of the markets for securities of emerging market issuers and the currently low or non-existent volume of trading, resulting in lack of liquidity and in price volatility, (iii) certain national policies which may restrict the Fund's investment opportunities including restrictions on investing in issuers or industries deemed sensitive to relevant national interests; and (iv) the absence of developed legal structures governing private or foreign investment and private property.

(o) Regional risk

The Fund's investments will be focused primarily in the Asia Pacific region. While such concentrated exposure may present greater opportunities and potential for capital appreciation, the Fund may be subject to higher risks as it may be less diversified than a global portfolio.

(p) Risks relating to distributions

Where the Fund makes distributions to Holders, such distributions are at our absolute discretion and are not guaranteed. Distributions may be made from dividend/interest income and capital gains derived from the investments of the Fund. Dividend/interest income may be adversely affected by events such as (but not

limited to) investee entities (including the Underlying Funds) suffering unexpected losses and/or paying lower than expected dividends, and adverse currency exchange rate fluctuations. Distributions may also be made out of capital. The declaration and/or payment of distributions (whether out of income, capital gains, capital or otherwise) may have the effect of lowering the NAV of the Fund or the relevant Class. Moreover, distributions out of capital may amount to a reduction of part of your original investment and may also result in reduced future returns to you.

(q) Risk relating to investments in Underlying Funds

The Fund may from time to time have a large concentration of investments in each of the Underlying Funds and could consequently be subject to significant losses where any Underlying Fund declines in value or is otherwise adversely affected. The Fund will be subject to different levels and combinations of risks based on its allocation among the Underlying Funds and the potential impact that the losses and risks of an Underlying Fund may have on the Fund would depend on the size of the Fund's allocation to it. The key risks in relation to each Underlying Fund are set out in the relevant Appendix.

The actual issue price after the initial offer period of a Class will fluctuate according to the NAV of that Class. Units in some Classes may be denominated in currencies other than SGD.

** The number of Units to be issued will be rounded down to 2 decimal places. We may use another method of calculation and adjustment or number of decimal places with the approval of the Trustee.

- (b) we are of the view that it is not in the interest of the investors or it is not commercially viable to proceed with the relevant Class.

10. REALISATION OF UNITS

10.1 How to realise Units

How to request for realisation:	<p>You may request to realise your Units through the following channels:</p> <ul style="list-style-type: none"> • authorised agents and distributors through whom your Units were originally purchased • ATMs (as and when available) • designated websites • other channels made available by us
Minimum realisation amount:	<p>100 Units per request.</p> <p>You may not realise part of your holding of Units if, as a result of the realisation, your holding would be less than the minimum holding set out in paragraph 8.2.</p>
Dealing Deadline:	<p>3 p.m. Singapore time on any Dealing Day.</p> <p>For requests received and accepted by us or our authorised agents or distributors by the Dealing Deadline of a Dealing Day, Units will be realised at the realisation price applicable to that Dealing Day.</p> <p>For requests received and accepted after the Dealing Deadline or on a day that is not a Dealing Day, Units will be realised at the realisation price applicable to the next Dealing Day.</p>
Pricing basis:	Units are realised on a forward pricing basis.
Realisation price:	<p>The realisation price per Unit shall be ascertained by:</p> <ol style="list-style-type: none"> determining the NAV as at the Valuation Point in relation to the Dealing Day on which the realisation request is received and accepted of the proportion of the Deposited Property of the Fund or Class represented by one Unit; and truncating the resultant amount to 3 decimal places. <p>We may use another method of determination or adjustment or number of decimal places with the approval of the Trustee.</p> <p>Any adjustments shall be retained by the Fund.</p>
Deduction of Realisation Fee:	A Realisation Fee may be deducted from the Gross Realisation Proceeds, and the Net Realisation Proceeds will be paid to you.
Conversion of realisation price:	<p>We will generally only permit realisation of Units in the relevant Class currency, and we will quote the realisation price in the relevant Class currency.</p> <p>If we decide to permit realisations in any other currency in the future, we will quote the realisation price in such currency at the applicable rate of exchange determined by us.</p>

When will Net Realisation Proceeds be paid to you:	<p>Within 6 Business Days after the relevant Dealing Day, or such other period as may be permitted by the Authority. There may be delays in cases where the realisation of Units has been limited or suspended in accordance with paragraphs 10.3 or 13.</p> <p>Proceeds will be paid by cheque or (where applicable) credited to your designated bank account or SRS account.</p>
Other salient terms:	<ul style="list-style-type: none"> You will bear all bank charges incurred for any telegraphic transfer of realisation proceeds to your designated bank account. If you are resident outside Singapore, we will deduct from your Gross Realisation Proceeds any expenses actually incurred by us over the amount of expenses which we would have incurred if you had been resident in Singapore. If we receive and accept a realisation request for Units before the Trustee receives your subscription monies for such Units, we may refuse to realise such Units until the next Dealing Day after the Dealing Day on which your subscription monies for such Units are received by the Trustee. Subject to the prior approval of the Trustee, we may change the method of determining the realisation price and the Trustee shall determine if the affected Holders should be informed of such change.

10.2 Numerical example of calculation of Net Realisation Proceeds

The Net Realisation Proceeds payable to you on the realisation of 1,000 Units will be calculated as follows:

1,000.00 Units	X	S\$0.900*	=	S\$900.00
Your realisation request		Realisation price		Gross Realisation Proceeds
S\$900.00	-	S\$0.00	=	S\$900.00
Gross Realisation Proceeds		Realisation Fee (0%)*		Net Realisation Proceeds

* Based on a realisation price of S\$0.900. There is currently no Realisation Fee payable for the Fund. This example is a hypothetical and is not indicative of any future realisation price. The actual realisation price will fluctuate according to the NAV of the relevant Class. Units in some Classes may be denominated in currencies other than SGD.

10.3 Limitation on realisation

We may, with the approval of the Trustee and subject to the provisions of the Deed, limit the total number of Units to be realised by the Holders or cancelled by us on any Dealing Day to 10% of the total number of Units of the Fund or the relevant Class then in issue. Such limitation will be applied proportionately to all Holders who have validly requested realisations on such Dealing Day and to us.

Any Units which are not realised or cancelled will be realised or cancelled on the next Dealing Day, provided that if the number of Units to be realised or cancelled still exceeds such limit, we may continue to carry forward the realisation/cancellation requests in the same manner, until such time as the total number of Units to be realised or cancelled on a Dealing Day falls within such limit.

If realisation requests are so carried forward and you are affected, we will notify you within 7 Business Days. Realisation requests which have been carried forward from an earlier Dealing Day shall be dealt with in priority to later requests.

10.4 Compulsory realisations

We may compulsorily realise your holding of Units in certain circumstances. See [paragraph 20.2](#) for further details.

11. SWITCHING OF UNITS

How to switch your Units:	You may request to switch your Units for Units in a different Class, or for units of any other Group Fund (the “ new units ”) by giving us or our authorised agents or distributors a switching request in the prescribed form.
When switches are made:	<p>Switches will only be made on a day (“Common Dealing Day”) which is both a Dealing Day for your Units and a dealing day for the new units.</p> <p>For requests received and accepted by us or our authorised agents or distributors by the Dealing Deadline of a Common Dealing Day, Units will be switched on that Common Dealing Day.</p> <p>For requests received and accepted after the Dealing Deadline or on a day that is not a Common Dealing Day, Units will be switched on the next Common Dealing Day.</p>
How switches are carried out:	<p>A switch of Units will be effected as follows:</p> <ol style="list-style-type: none"> your Units will be realised at the realisation price calculated under <u>paragraph 10</u>; the net realisation proceeds shall then be used (after deducting any Switching Fee payable) to subscribe for new units at the prevailing issue price of such new units. For the purposes of the switch, we may waive in whole or in part the subscription fee for the new units and/or the Realisation Fee (if any).
Other salient terms:	<ul style="list-style-type: none"> Switches will be at our discretion. You may withdraw a switching request only with our consent. Switching is subject to the terms of the Deed and the constitutive documents of the relevant Group Fund, including the provisions relating to the issue and realisation of Units. Switches will not be allowed during the initial offer period of the relevant Class/Group Fund. Switches will not be allowed if it results in you holding Units below any applicable minimum holding. Switches will not be allowed between Units denominated in different currencies. Switches will not be allowed during any period where the realisation of Units has been limited or suspended in accordance with <u>paragraphs 10.3 or 13</u>. Units purchased with cash or SRS monies (as the case may be) may only be switched to new units which may be purchased with the same payment method. Neither the Trustee nor we shall have responsibility or liability to ensure that the provisions of the constitutive documents of the relevant Group Fund relating to the issue, realisation or switching of units are complied with.

12. OBTAINING PRICES OF UNITS

You may obtain indicative prices of Units:

- from our authorised agents and distributors; or
- by calling our hotline at 1800 22 22 228 from 8 a.m. to 8 p.m. daily (Singapore time).

The actual prices quoted will generally be published 2 Business Days after the relevant Dealing Day in the relevant Class currency. Prices may be published in local or foreign publications such as The Straits Times and The Business Times, and on our website at uobam.com.sg or any other website designated by us. Publication frequency depends on the policies of the relevant publisher.

Except for our own publications, we do not accept any responsibility for errors made by any publisher, whether in the published prices or for any non-publication or late publication of prices. We will not be liable in respect of any action taken or loss suffered by you arising from any publication by such publishers.

13. SUSPENSION OF DEALINGS

13.1 Subject to the provisions of the Code, we or the Trustee may, with the prior written approval of the other, suspend the issue and realisation of Units of the Fund or any Class during:

- any period when the Recognised Market on which a material part of the Authorised Investments forming part of the Deposited Property of the Fund for the time being are listed, quoted or dealt in is closed (otherwise than for public holidays) or during which dealings are substantially restricted or suspended;
- the existence of any state of affairs which, in the Trustee's and our opinion, might seriously prejudice the interests of the Holders in relation to the Fund or Class as a whole or of the Deposited Property of the Fund;
- any period when a state of emergency prevents a practicable disposal of such Authorised Investments by or on behalf of the Trustee;
- any breakdown in the means of communication normally employed in determining the price of any of such Authorised Investments, or the current price on the relevant Recognised Market, or when for any reason the prices of any of such Authorised Investments, or the amount of any of our liability and/or the liability of the Trustee for the account of the Fund, cannot be promptly and accurately ascertained (including any period when the fair value of a material portion of the Authorised Investments cannot be determined);
- any period when remittance of moneys which will or may be involved in the realisation of such Authorised Investments or in the payment for such Authorised Investments for the time being constituting the Deposited Property is not possible or cannot, in the Trustee's and our opinion, be carried out at normal rates of exchange;
- upon the occurrence of any event causing us to liquidate a substantial percentage of the assets comprised in the Deposited Property (as determined in our absolute discretion), or to terminate the Fund;
- any period whereby dealing of Units has to be suspended to effect the subdivision or consolidation of Units;
- any period when the dealing of Units is suspended pursuant to any order or direction of the Authority or any judicial or governing authority of competent jurisdiction;
- any 48 hour period (or such longer period as may be agreed between the Trustee and us) prior to the date of any meeting of Holders of the Fund or Class (or any adjourned meeting thereof);
- any period when the Trustee's or our business operations in relation to the operation of the Fund are substantially interrupted or closed as a result of or arising from pestilence, acts of war, terrorism, insurrection, revolutions, civil unrest, riots, strikes or acts of God;
- exceptional circumstances, where we have determined that such suspension is in the best interest of the Holders;

- (l) any period when dealings in any one or more of the underlying entities in which the Fund has invested a substantial portion of its assets are suspended; or
- (m) such other circumstances as may be required under the provisions of the Code.

13.2 Without prejudice to paragraph 13.1 above, the Trustee may, with the prior approval of the Authority, suspend the issue and realisation of Units of the Fund or any Class in the event of the following:

- (a) we go into liquidation (except a voluntary liquidation for the purpose of reconstruction or amalgamation upon terms previously approved in writing by the Trustee, such approval not to be unreasonably withheld or delayed);
- (b) a receiver or trustee is appointed of the whole or of any substantial part of our assets or undertaking; or
- (c) we convene a meeting of our creditors or make or propose to make any arrangement or composition with or any assignment for the benefit of our creditors.

13.3 Subject to the provisions of the Code, we and/or the Trustee may from time to time also suspend the issue and/or realisation of Units in certain situations as set out in the Deed, including suspending the realisation of Units for such reasonable period as may be necessary to effect an orderly redemption of investments in accordance with Clause 16.8 of the Deed.

13.4 Subject to the provisions of the Code, any such suspension will take effect upon our written declaration to the Trustee (or vice versa, as the case may be) and will end as soon as practicable when the condition giving rise to the suspension no longer exists and no other condition under which suspension is authorised under this paragraph 13 or the applicable provisions of the Deed exists upon our (or, as the case may be, the Trustee's) written declaration of the same and in any event, within such period as may be prescribed by the Code. The period of suspension may be extended in accordance with the Code. Any payment for any Units realised before the commencement of any such suspension which has not been paid before the commencement thereof may, if we and the Trustee agree, be deferred until immediately after the end of such suspension.

⁽²⁾ Calculated on a NAV-to-NAV basis as at 29 September 2017, taking into account the Subscription Fee and Realisation Fee (if any), with all dividends and distributions reinvested (net of reinvestment charges). Figures for one year show the percentage change, while figures for more than one year show the average annual compounded return.

⁽³⁾ The expense ratio is calculated in accordance with the requirements in the Investment Management Association of Singapore's guidelines on the disclosure of expense ratios (the "IMAS Guidelines") and is based on the Fund's latest audited accounts for the financial year ended 31 December 2016. The following expenses (where applicable) as set out in the IMAS Guidelines (as may be updated from time to time), are excluded from the calculation of the expense ratio:

- (a) brokerage and other transaction costs associated with the purchase and sales of investments (such as registrar charges and remittance fees);
- (b) foreign exchange gains and losses, whether realised or unrealised;
- (c) front-end loads, back-end loads and other costs arising on the purchase or sale of other funds;
- (d) tax deducted at source or arising on income received, including withholding tax;
- (e) interest expense; and
- (f) dividends and other distributions paid to the Holders.

⁽⁴⁾ Changes to benchmarks during the life of the Fund and reasons for changes:

- (a) from inception to 11 February 2015 – a composite of 40% JACI Non-Investment Grade Total Return

Index; 50% JP Morgan Asia Credit Index Total Return Composite; and 10% MSCI AC Asia Pacific Index;

- (b) from 12 February 2015 – a composite of 70% JP Morgan Asia Credit Index Total Return Composite and 30% MSCI AC Asia Pacific Index (Reason for change from previous benchmark: the new broader benchmark better reflects the strategy of the Fund and is therefore a more appropriate benchmark for the Fund).

The past performance of the Fund is not necessarily indicative of its future performance.

14.2 Turnover ratio of the Fund

The turnover ratio of the Fund for the financial year ended 31 December 2016 is 3.05%.

The turnover ratio is calculated based on the lesser of purchases or sales of the Fund's underlying investments expressed as a percentage of the daily average NAV of the Fund.

14.3 Turnover ratios of the Underlying Funds

The turnover ratio of each Underlying Fund is set out in the relevant Appendix. The turnover ratio is calculated based on the lesser of purchases or sales expressed as a percentage over the daily average NAV of the relevant Underlying Fund.

15. **SOFT DOLLAR COMMISSIONS/ARRANGEMENTS**

Subject to the provisions of the Code, we may from time to time receive or enter into soft dollar commissions/arrangements in our management of the Fund and the Underlying Funds. We will comply with applicable regulatory and industry standards on soft dollars. The soft dollar commissions/arrangements may include specific advice as to the advisability of dealing in, or the value of, any investments, research and advisory services, economic and political analyses, portfolio analyses including valuation and performance measurements, market analyses, data and quotation services, computer hardware and software or any other information facilities to the extent that they are used to support the investment decision making process, the giving of advice, or the conduct of research or analysis, and custodial service in relation to the investments managed for clients.

Soft dollar commissions/arrangements will not include travel, accommodation, entertainment, general administrative goods and services, general office equipment or premises, membership fees, employees' salaries or direct money payment.

We will not accept or enter into soft dollar commissions/arrangements unless (a) such soft dollar commissions/arrangements can reasonably be expected to assist us in the management of the Fund, (b) best execution is carried out for the transactions, and (c) no unnecessary trades are entered into in order to qualify for such soft dollar commissions/arrangements.

We do not, and are not entitled to, retain cash or commission rebates for our own account in respect of rebates earned when transacting in securities for account of the Fund.

16. **CONFLICTS OF INTEREST**

16.1 Managers' conflicts of interest disclosures

We are of the view that there is no conflict of interest in our management of other funds and the Fund because of the following structures in place:

- (a) Investment decisions for each fund are made impartially. There are no preferred customers or funds and all accounts are treated equally.
- (b) All investment ideas are shared equally among fund managers.
- (c) We subscribe to the Code of Ethics and the Standards of Professional Conduct as prescribed by the Chartered Financial Analyst Institute ("CFA Institute") in the United States of America. The CFA Institute is the primary professional organisation for security analysts, investment managers and others who are involved

in the investment decision-making process. All charter holders of the CFA Institute and candidates who are in pursuit of the charter, including those from Singapore, are expected to comply with CFA Institute standards. The Code of Ethics and the Standards of Professional Conduct are in place to ensure high ethical and professional standards of investment professionals as well as fair treatment of the investing public.

- (d) Despite the possible overlap in the scope of investments, none of the funds are identical to one another and investment decisions are made according to the individual risk-return characteristic of the relevant fund.
- (e) Most importantly, our usual fair and unbiased practice is to allocate investments proportionately between various funds which place the same orders simultaneously. However, if there are any potential conflicts of interests due to competing orders for the same securities, we will adopt an average pricing policy whereby orders that are partially fulfilled on a particular day will be allotted proportionately among the funds based on their respective initial order size and such quantity allotted will be at the average price of such investments on that particular day.

We shall conduct all transactions with or for the Fund on an arm's length basis.

Save as provided in the Deed, our associates may be engaged to provide banking, brokerage, financial or other services to the Fund or buy, hold and deal in any investments, enter into contracts or other arrangements with the Trustee or us and make profits or derive benefits from these activities. Such services to the Fund, where provided, and such activities with the Trustee or us, where entered into, will be on an arm's length basis.

We and our related entities, officers or employees may from time to time invest and deal in Units in the Fund for each of our respective individual accounts or (in our case and in the case of our related entities) for the account of another person (including, without limitation, our and our related entities' other clients).

In such an event, we will have regard to our obligations to the Fund and, in particular, our obligation to act in the best interests of the Fund and its Holders so far as practicable, having regard to applicable laws and our obligations to our other clients. If a conflict of interest does arise, we will endeavour to ensure that such conflict is resolved fairly.

Subject to the provisions of the Code, we may from time to time:

- (i) invest monies of the Fund in the securities of any of our related corporations (as defined in Section 4 of the Companies Act, Chapter 50 of Singapore) (each, a "**related corporation**");
- (ii) invest monies of the Fund in other collective investment schemes managed by us or our related corporations; and
- (iii) deposit monies of the Fund in the ordinary course of business of the Fund with our related corporations which are banks licensed under the Banking Act, Chapter 19 of Singapore, finance companies licensed under the Finance Companies Act, Chapter 108 of Singapore, merchant banks approved as financial institutions under Section 28 of the Monetary Authority of Singapore Act, Chapter 186 of Singapore or any other deposit-taking institution licensed under an equivalent law in a foreign jurisdiction.

We will endeavour to ensure that such investments and deposits are made on normal commercial terms and are consistent with the investment objective, focus and approach of the Fund.

16.2 Trustee's conflicts of interest disclosures

The Trustee shall conduct all transactions with or for the Fund on an arm's length basis.

The Trustee, the registrar and the custodian may from time to time act as trustee, administrator, registrar or custodian or otherwise as may be required from time to time in relation to, or be otherwise involved in or with, other funds and clients which have similar investment objectives to those of the Fund. It is, therefore, possible that any of them may, in the course of business, have potential conflicts of interest with the Fund. Each will, at all times, have regard in such event to its obligations to the Fund and will endeavour to ensure that such conflicts are resolved fairly and taking into account Holders' interests.

The services of the Trustee provided to the Fund are not deemed to be exclusive and the Trustee shall be free to render similar services to others (including those that may compete with (or have a similar objective to) the business of the Fund) so long as its services hereunder are not impaired thereby and to retain for its own use

and benefit all appropriate fees and benefits. Conflicts of interest will likely arise from the fact that State Street is engaged in a wide variety of businesses and will provide services to many clients with the same or different objectives. The Trustee and its related parties shall not be deemed to be affected with notice of or to be under any duty to disclose to the Fund any fact or information which comes to the notice of the Trustee in the course of the Trustee rendering similar services to other parties or in the course of its business in any other capacity, otherwise than in the course of carrying out its duties under the Deed or as required by any applicable laws and regulations for the time being in force.

Save as provided in the Deed, the associates of the Trustee may be engaged to provide banking, brokerage, financial or other services to the Fund or buy, hold and deal in any investments, enter into contracts or other arrangements with the Trustee or the Managers and make profits or derive benefits from these activities. Such services to the Fund, where provided, and such activities with the Trustee or the Managers, where entered into, will be on an arm's length basis. In particular:

- (a) State Street Bank and Trust Company, acting through its Singapore Branch, a party related to the Trustee, has been appointed as custodian of the Fund. The custodian may also appoint related parties as sub-custodians. Cash will be placed with the custodian as banker or may, at the discretion of the Managers, be invested in certificates of deposit or banking instruments issued by a related party of the Trustee, including the custodian. Money may also be borrowed by the Fund from a State Street entity. In its capacities as custodian and banker, State Street will earn fees/interest for such services and may receive other benefits in connection with such services.
- (b) Where foreign exchange transactions, including but not limited to spot, forward or swap transactions (collectively "**foreign exchange transactions**"), are entered into for or on behalf of the Fund with an affiliate of the Trustee (a "**State Street counterparty**"), the State Street counterparty will enter into such transaction as principal counterparty and not as agent or fiduciary for the Trustee, the Managers or the Fund and such State Street counterparty shall be entitled to retain for its own use and benefit any benefit which it may derive from any such foreign exchange transactions or the holding of any cash in connection with such transactions. Foreign exchange transactions may also be entered into for or on behalf of the Fund with counterparties other than a State Street counterparty.

17. REPORTS

The financial year-end of the Fund is 31 December.

The reports and accounts of the Fund will be sent or made available to Holders by post or by such electronic means as may be permitted under the Code within the following periods or such other periods as may be permitted by the Authority:

Report/account	Availability
(a) Annual report, annual audited accounts and the auditors' report on the annual accounts	Within 3 months of the end of the financial year.
(b) Semi-annual report and semi-annual accounts	Within 2 months of the end of the period to which the report and accounts relate.

If such reports and accounts are sent or made available to Holders by electronic means, the Trustee will also make available or cause to be made available hardcopies of the reports and accounts to any Holder who requests for them within 2 weeks of such request (or such other period as may be permitted by the Authority). 19. OTHER MATERIAL INFORMATION

19.1 Market timing

The Fund is not designed and managed to support short-term investments. In this regard, we take a serious view of, and strongly discourage the practice of market timing (that is, investors conducting short-term buying or selling of Units to gain from inefficiencies in pricing) as such practices may cause an overall detriment to the interests of other investors.

In addition, short-term trading in Units increases the total transaction costs of the Fund, such as trading commission and other costs which are absorbed by all other investors. Moreover, the widespread practice of market timing may cause large movements of cash in the Fund, which may disrupt the investment strategies to the detriment of other investors.

For the reasons set out above, we may implement internal measures to monitor and control the practice of market timing. If any internal measure to restrict the practice of market timing amounts to a significant change to the Fund (as provided in the Code), we will inform Holders of such internal measure not later than one month before its implementation. We intend to review our policy on market timing from time to time in a continuous effort to protect the interests of investors in the Fund.

19.2 Information on investments

At the end of each quarter, you will receive a statement showing the value of your investments in the Fund. If you conduct any transaction(s) within a particular month, you will receive an additional statement at the end of that month.

19.3 Indemnities

We and the Trustee are entitled to be indemnified out of or have recourse to the Deposited Property in accordance with the terms of the Deed. See the Deed for further details.

20. PROVISIONS OF THE DEED

Some of the provisions of the Deed are set out below. *See the Deed for the full terms and conditions of the Fund.*

20.1 Valuation

Except where otherwise expressly stated in the Deed and subject always to the requirements of the Code, the value of the assets comprised in the Deposited Property of the Fund with reference to any Authorised Investment which is:

- (a) a Quoted Investment, shall be calculated, as the case may be, by reference to the official closing price, the last known transacted price or the last transacted price (or, with the prior approval of the Trustee, the last bid price) as at the last official close on the relevant Recognised Market (or at such other time as the Managers may from time to time determine with the prior agreement of the Trustee). Where such Quoted Investment is listed, dealt or traded in more than one Recognised Market, the Managers (or such person as the Managers may appoint for the purpose) may in their absolute discretion select any one of such Recognised Markets for the foregoing purposes and, if there is no such official closing price, last known transacted price or last transacted price, the value shall be calculated by reference to the last available prices quoted by responsible firms, corporations or associations on a Recognised Market at the time of calculation (or at such other time as the Managers may from time to time determine with the prior agreement of the Trustee), and where there is no Recognised Market, the price of the relevant Investment as quoted by a person, firm or institution making a market in that Investment, if any (and if there shall be more than one such market maker, then such market maker as the Managers shall designate);
- (b) an Unquoted Investment, shall be calculated by reference to, where applicable: (i) the initial value thereof being the amount expended in the acquisition thereof; (ii) the price of the relevant Investment as quoted by a person, firm or institution making a market in that Investment, if any (and if there shall be more than one such market maker then such market maker as the Managers may designate), as may be determined by the Managers to represent the fair value of such Investment; or (iii) the sale prices of recent public or private

transactions in the same or similar Investments, valuations of comparable companies or discounted cash flow analysis, as may be determined to represent the fair value of such Investment. In the valuation of such Investment, the Managers may take into account relevant factors including, without limitation, significant recent events affecting the issuer such as pending mergers and acquisitions and restrictions as to saleability or transferability;

- (c) cash, deposits and similar assets shall be valued (by a person approved by the Trustee as qualified to value such cash, deposits and similar assets) at their face value (together with accrued interest) unless, in the opinion of the Managers (after consultation with the Trustee), any adjustment should be made to reflect the value thereof;
- (d) a unit or share in a unit trust scheme or mutual fund or collective investment scheme shall be valued at the latest published or available net asset value per unit or share, or if no net asset value per unit or share is published or available, then at their latest available realisation price; and
- (e) an Investment other than as described above, shall be valued by a person approved by the Trustee as qualified to value such an Investment in such manner and at such time as the Managers shall from time to time determine with the prior agreement of the Trustee,

provided that, if the quotations referred to in paragraphs 20.1(a) to 20.1(e) above are not available, or if the value of the Authorised Investment determined in the manner described in paragraphs 20.1(a) to 20.1(e) above is determined by the Managers with due care and in good faith to not be representative of the value of such Authorised Investment, then the value shall be such value as the Managers may with due care and in good faith consider in the circumstance to be the fair value and is approved by the Trustee. The Managers shall notify the Holders of such change if required by the Trustee. For the purposes of this proviso, the “**fair value**” shall be determined by the Managers in consultation with a stockbroker or an approved valuer and with the approval of the Trustee in accordance with the Code. Where the fair value of a material portion of the Deposited Property of the Fund cannot be determined, the Managers shall, subject to the provisions of the Code, suspend valuation and dealing in the Units of the Fund.

The Managers may from time to time, with the prior written approval of the Trustee, amend the method of valuation set out above and the Trustee shall determine if the Holders should be informed of such amendment.

The Managers have the right (in consultation with the Trustee) to compulsorily realise any holdings of Units held by:

- (a) any Holder:

Any compulsory realisation under this paragraph may be carried out by the Managers on any Dealing Day, with prior notice to the relevant Holder, and shall be carried out in accordance with, and at the Realisation Price determined under, the applicable provisions on realisations in the Deed.

The Managers and/or the Trustee (as the case may be) shall be entitled to apply the proceeds of such realisation in payment, reimbursement and/or set-off against the liability.

The Managers, the Trustee and their respective delegates, agents or associates shall not be liable for any loss (whether direct or consequential and including, without limitation, loss of profit or interest) or damage suffered by any Holder or any party arising out of or caused in whole or in part by any actions which are taken by the Managers, Trustee and/or any of their respective delegates, agents or associates under this paragraph 20.2.

APPENDIX 1 – DETAILS OF UNDERLYING FUND: UNITED ASIAN BOND FUND

This Appendix sets out details of United Asian Bond Fund (“UABF”), a sub-fund of United Choice Portfolios.

1. Investment objective, focus and approach

(a) Investment objective

UABF seeks to provide stable current income and capital appreciation by investing primarily in debt securities issued by Asian corporations, financial institutions, governments and their agencies (including money market instruments). The Asian countries which UABF will invest in include but are not limited to Singapore, Malaysia, Thailand, Indonesia, Philippines, Hong Kong SAR, South Korea, Taiwan, China, Australia, New Zealand and Japan.

(b) Investment focus and approach

UABF is actively managed with a focus on yield at an acceptable risk premium. There is no bias towards sovereign or corporate bonds. The emphasis is on the credit spread as the main source of incremental return. Credit analysis and credit diversification by us are important as a source of added value and to reduce unsystematic risks inherent in such investments respectively.

Our investment style is based on the probability of credit upgrades and the extent to which the pricing has been reflected in the credit in question. UABF’s portfolio of investments will be reviewed regularly so as to enable UABF to switch out of overvalued securities to undervalued securities. A long term view is taken when assessing an investment opportunity. At the same time, we recognise that Asian markets are subject to greater volatility than developed markets and may therefore require a greater level of trading than originally envisaged. Our policy generally is to have UABF fully invested save where there is overwhelming evidence to suggest that markets are excessively overvalued.

2. Risks

Some of the key risks in relation to UABF are market risk, liquidity risk, political risk, derivatives risk, foreign exchange and currency risk, risk relating to distributions and debt securities risk.

The prospectus for UABF, which includes more details on the risks of UABF, may be obtained from our authorised agents or distributors or through our website at uobam.com.sg. ***Please note that this Prospectus is not to be construed as an offer of units in UABF.***

In the case of a switch of units of UABF to units of any other fund managed by us (referred to as the “**New Fund**”), the Switching Fee referred to relates to the subscription fee imposed by us for investment into the New Fund. Such Switching Fee would, in the case of a New Fund which normally imposes a subscription fee which exceeds the Switching Fee, effectively translate to a discount of the subscription fee of the New Fund.

⁽²⁾ The trustee’s fees for UABF are paid by us out of the Annual Management Fee and not out of the deposited property of UABF. (vi) S\$100,000,000 and above	= S\$60,000

⁽⁵⁾ The audit fee payable is subject to agreement with the auditors of UABF for each financial year.

Based on the audited accounts of UABF for the financial year ended 30 June 2017, the audit fee did not amount to or exceed 0.1% in that financial year.

⁽⁶⁾ The custodian fee payable is subject to agreement with the custodian and will depend, amongst others, on the size of UABF, where the assets are held, the number of transactions carried out and the place at which such transactions are effected in relation to UABF. Based on the audited accounts of UABF for the financial year ended 30 June 2017, the custodian fee did not amount to or exceed 0.1% in that financial year.

APPENDIX 3 – DETAILS OF UNDERLYING FUND: UNITED ASIA PACIFIC REAL ESTATE INCOME FUND

This Appendix sets out the details of United Asia Pacific Real Estate Income Fund (“UAPREIF”), a sub-fund of United Real Estate Multi Strategy Funds.

1. Investment objective, focus and approach

(a) Investment objective

The investment objective of UAPREIF is to seek total return consisting of income and capital appreciation over the medium to long term by investing primarily in REITs listed in the Asia Pacific region (including Japan, Australia and New Zealand).

(b) Investment focus and approach

In order to achieve its investment objective, UAPREIF will invest primarily in units of REITs listed in the Asia Pacific region (including Japan, Australia and New Zealand), as well as securities related to units of such REITs such as rights and warrants.

In addition, UAPREIF may from time to time invest up to 30% of its net asset value in debt securities and convertible bonds issued by such REITs where we are of the opinion that valuations of such securities are justifiable relative to units of such REITs.

UAPREIF may also invest in other investment vehicles focused on real estate, such as business trusts, property trusts, stapled trusts and/or other collective investment schemes.

The investments of UAPREIF shall be subject to the provisions of the Code.

We aim to construct a diversified portfolio of REITs in the Asia Pacific region (including Japan, Australia and New Zealand). The investment process involves firstly a top-down allocation across the various key regions to determine the relative weights in each region and then the bottom-up selection of securities.

In the **top-down allocation**, the economic fundamentals of each region are assessed, in particular Gross Domestic Product (GDP) outlook, interest rate direction, yield spreads, consumer confidence, employment outlook, transactional values, cap rates trend and government policy on the property market. We will formulate views on rental income outlook within the sub-segments: residential, office, retail, industrial and hospitality based on the respective demand-supply outlook and potential for net asset value (NAV) growth in the medium term.

In the **bottom-up stock selection**, we look to invest in REITs with quality and well-managed assets that deliver above industry rental rates and occupancy levels through the property cycle. They are able to generate resilient rental cashflows during cycle downturn and high capital appreciation during an upcycle. We prefer REITs with strong sponsors that are able to deliver both organic and inorganic growth via accretive acquisitions. We also look for REITs managed by good quality asset managers (particularly in the retail sector) and are disciplined in capital management.

We analyse and pick securities based on:

- (i) asset size and ability to grow;
- (ii) quality of investment properties;
- (iii) quality of the asset managers in lease management and ability to deliver on asset enhancement initiatives for yield enhancement;
- (iv) underlying lease arrangements, tenant concentration risks, weighted average lease to expiry and tenant profiles;

- (v) competitiveness of the physical properties in the micro-market;
- (vi) balance sheet strength; and
- (vii) attractive valuation in term of yields and price to NAV.

We also look to invest opportunistically in REITs that are mis-priced by the market and are able to deliver better than expected distributable income.

In the event we find that there are no suitable investment opportunities for UAPREIF at any time, it may temporarily invest in money market instruments, short term debt securities or hold cash deposits. UAPREIF may also hold part of its assets in liquid investments or cash for liquidity purposes.

2. Risks

Some of the key risks for UAPREIF are market risk, real estate risk, foreign exchange/currency risk, risk of investing in a regional fund, political and/or regulatory risks, derivatives and portfolio management risk, and risks relating to distributions.

The prospectus for UAPREIF, which includes more details on the risks of UAPREIF, may be obtained from our authorised agents or distributors or through our website at uobam.com.sg. ***Please note that this Prospectus is not to be construed as an offer of units in UAPREIF.***

APPENDIX 4 – DETAILS OF UNDERLYING FUND: UNITED EMERGING MARKETS BOND FUND

This Appendix sets out the details of United Emerging Markets Bond Fund (“UEMBF”), a sub-fund of United Emerging Markets Portfolios.

1. Investment objective, focus and approach

(a) Investment objective

To maximise returns, with high yield and capital appreciation over the longer term, by investing primarily in Emerging Markets⁴ debt investments and products.

(b) Investment focus and approach

UEMBF seeks to achieve its investment objective by investing primarily in debt securities (including non-investment grade securities) and debt obligations issued by governments, quasi-government bodies, international and multi-national organisations, banks, financial institutions, corporations and/or other entities located, incorporated or having significant business operations or assets in the Emerging Markets. Such investments would include, without limitation, fixed and floating rate debt instruments, convertible debt instruments or instruments which are convertible or exchangeable into other securities, mortgage or asset-backed securities, and synthetic or structured products which are linked to or derive their values from other securities or are linked to other assets or currencies. Subject to the provisions of the Code, UEMBF may also invest in or hold stressed, distressed and/or defaulted debt investments. UEMBF may also invest in other Authorised Investments (as defined in the prospectus of UEMBF) to achieve its investment objective.

UEMBF may also invest in financial derivative instruments to optimise returns. Such financial derivative instruments include futures, options, warrants, swaps (such as credit default swaps and total return swaps) and forward currency contracts.

To enhance its risk/return profile, UEMBF may, from time to time and at our discretion, invest (whether directly or through financial derivative instruments) in debt securities and debt obligations issued by governments, quasi-government bodies, international and multi-national organisations, banks, financial institutions, corporations and/or other entities located outside the Emerging Markets. UEMBF may also invest in investments other than debt securities and debt obligations including, equity and equity related securities, whether issued by entities in the Emerging Markets or otherwise. Such investments are not expected to form a significant part of UEMBF’s portfolio.

Where any debt instruments invested into by UEMBF are converted or exchanged into other securities (including equity or equity related securities), UEMBF may hold such securities upon such conversion or exchange.

While UEMBF invests mainly in US Dollar denominated securities, we may invest in securities which are denominated in any other currency.

Our investment philosophy is to achieve consistent performance through rigorous and independent fundamental research to uncover relative value opportunities. We adopt diversified strategies combined with active risk management with the aim to generate favorable long-term risk adjusted returns vis-à-vis the benchmark for fixed income portfolios.

Our investment approach embodies two key principles:

- adding value through credit or security selection backed by its independent fundamental bottom-up research; and

⁴ The expression “Emerging Market” shall refer to any country:

- (i) considered middle income or low income (or sub-categories or gradations thereof) by the World Bank;
- (ii) classified as an emerging market and/or developing economy by the International Monetary Fund;
- (iii) included in any emerging or emerging market index constructed by any major index provider (including, without limitation, MSCI, JP Morgan, S&P Dow Jones and FTSE); or
- (iv) reasonably considered to be an emerging market by the Managers from time to time.

APPENDIX 5 – DETAILS OF UNDERLYING FUND: UNITED SGD FUND

This Appendix sets out the details of United SGD Fund (“USF”), a sub-fund of United Choice Portfolios II.

1. Investment objective, focus and approach

(a) Investment objective and focus

The investment focus of USF is to invest substantially all its assets in money market and short term interest bearing debt instruments and bank deposits with the objective of achieving a yield enhancement over Singapore dollar deposits.

(b) Investment approach

Our research process is fundamental and valuation driven, and bottom-up in approach. We have a team of credit analysts for both Singapore fixed income issuers and high grade corporate issuers in the developed markets. This benefits our Singapore credit research efforts as many high grade foreign issuers have issued Singapore-dollar denominated securities.

For Singapore, Asia and emerging markets, our team of credit analysts conducts a detailed credit analysis that evaluates industry outlook, business review, financial review, management expertise, strength of ownership and specific debt structure. This results in an implied rating score. Relative valuation will determine corporate credit selection.

For rated issuers, mainly US/Europe high grade issuers, to supplement the fundamental analysis by their G10 credit team, we have implemented a quantitative credit risk approach based from the KMV model. This model uses the Merton option framework to calculate the implied asset volatility or the Expected Default Frequency (EDF) of any corporate bond issue. Other inputs include an asset correlation database, which is generated from a proprietary risk management system. Together, the model will calculate the return-expected loss trade off for any corporate bond issue.

2. Risks

Some of the key risks for USF are market risk in the global markets, credit and default risks, liquidity risk, interest rate risks, political risk, derivatives risk, foreign exchange risk.

The prospectus for USF, which includes more details on the risks of USF, may be obtained from our authorised agents or distributors or through our website at uobam.com.sg. ***Please note that this Prospectus is not to be construed as an offer of units in USF.***
